Center for Intellectual Property and Competition Law

ARTIFICIAL INTELLIGENCE (AI) AND INTELLECTUAL PROPERTY LAW

**WORKSHOP SERIES IN COOPERATION WITH THE
SWISS FEDERAL INSTITUTE OF INTELLECTUAL
PROPERTY (IPI)**

3rd Online Session: policy and legal design

Start the new year (artificially) intelligent! In January 2022, the last of our AI/IP online workshops will look at "policy and legal design", featuring speakers from, inter alia, the Swiss Intellectual Property Office, the European Patent Office, the Intellectual Property Office of Singapore, the UK Intellectual Property Office, the World Intellectual Property Organization, the Australian Patent Office, the University of Zurich's Digital Society Initiative, Computer Science Expert and economists.

We want to ask what AI implies for the work of patent offices and other IP institutions around the world:

- Need IP administration rules a change?
- How do we achieve more transparency on AI involvement in patent applications?
- How to register new concepts of ownership to AI-related IP?
- Where should patent offices employ AI themselves?

The event will take place on **10 January 2022, 15:00-17:30 CET, via Zoom**. Save the date and join the discussion together with our top-notch speakers!

Hosts: Prof. Dr. Felix Addor (IPI, Swiss Intellectual Property Office)
Prof. Dr. Peter Georg Picht (CIPCO)

Administration: Anaïc Cordoba (IPI, Swiss Intellectual Property Office)
Ada Sofie Altobelli / Martin P. Werner (CIPCO)
